		the Chinese Communist Hsin Hua News Agency which stated that land redistri- bution was scheduled to be basically completed in Southwest China in 1953.				
25X1X		at the end of May 1953 there was an official policy of slowing the runaway program of collectivization; and in some areas of the South there was almost a reversal of the land reform25X1A program, with the government again promising to respect private ownership. 25X1A				
	2.	Comment.				
25X1A		reform was completed early in 1948, over 80 percent of the rural population are already members of mutual-aid teams which cultivate 85 percent of the total acreage of farmland."
